Subject: Extension Request, Binggeli Rock Products, Inc., Bedrock Pit Permit,  
M/051/005, Wasatch County, Utah

Dear Mr. Binggeli:

On August 3, 2004, the Division received your request for an extension for the submittal of a mining and reclamation plan for Binggeli Rock Product's quarry located near Heber City, Utah. Your request was for an extension of time for an additional one to two months to complete this plan.

The Division will grant your request for an additional one month to complete this work. The plan should be received by this office by September 6, 2004. If the plan is not completed at that time the Division will require that an interim bond be placed until such time as the plan is submitted and approved. This bond will be assessed at a cost of \$5000/acre for the total area to be permitted.

You should be aware that you are not allowed to mine in the bedrock portion of the site until such time as the permit is approved. Mining without a permit could result in fines being levied as a part of the Division's Inspection and Enforcement Rules.

If you have any questions please call me at (801) 538-5382

Sincerely,

Doug Jensen  
Senior Reclamation Engineer
